Dear < Customer FSE Last Name>,

Subject: Obsolescence of HIH9000 Series Humidity Sensors

This is to inform you that effective immediately, Honeywell will no longer offer HIH9000 Series Humidity Sensors due to manufacturing challenges and changes in demand. We are requesting that our customers select a pin to pin compatible device within the HIH8000, HIH7000 or HIH6000 series in any current or new application.

Honeywell values its customers and realizes that this may require some additional work to transition to another humidity sensor series. We want to work with you to make this a smooth transition and continue earning your business with the pin to pin and electrically compatible HIH8000, HIH7000 and HIH6000 series.

If you have any questions, please contact your Honeywell sales consultant, your sales representative for Honeywell products, or me.

Sincerely,

Stephan Bork
Global Product Marketing Manager
