LF PCN A0107: 0337 Capacity expansion -- additional dial table

Aug 11, 2016

Dear Valued Customer,

As part of our process to maintain capability and capacity on standard product lines sold to multiple customers, Littelfuse is taking the following actions for the 0337 MICRO3 blade fuse series:

Littelfuse will add one Dial Table assembly machine to expand capacity. There are no changes to the rest of the assembly equipment. This will be additional capacity and is exactly a copy of the current Dial Table machine; this action is being taken to protect supply. The new equipment will have no impact on the Form, Fit, or Function of the product.

The target date for introduction is August 29, 2016.

Impacted Materials:

| Product Series | Style / Description |
|-----------------------|---|
| 0337005.PX2S | Fuse - Micro3 Blade 32V Ag 5A 2000 pc |
| 0337010.PX2S | Fuse - Micro3 Blade 32V Ag 10A 2000 pc |
| 0337015.PX2S | Fuse - Micro3 Blade 32V Ag 15A 2000 pc |
| 033707.5PX2S | Fuse - Micro3 Blade 32V Ag 7.5A 2000 pc |
| 0337900.PX2S | Shunt - Micro3 Blade 32V Ag 2000 pc |

Please contact your local Littelfuse representative if you have any additional questions. We will be pleased to answer any questions you may have. Thank you for your continued support.

Best Regards,

Aram Tamez
